

# Neopor®

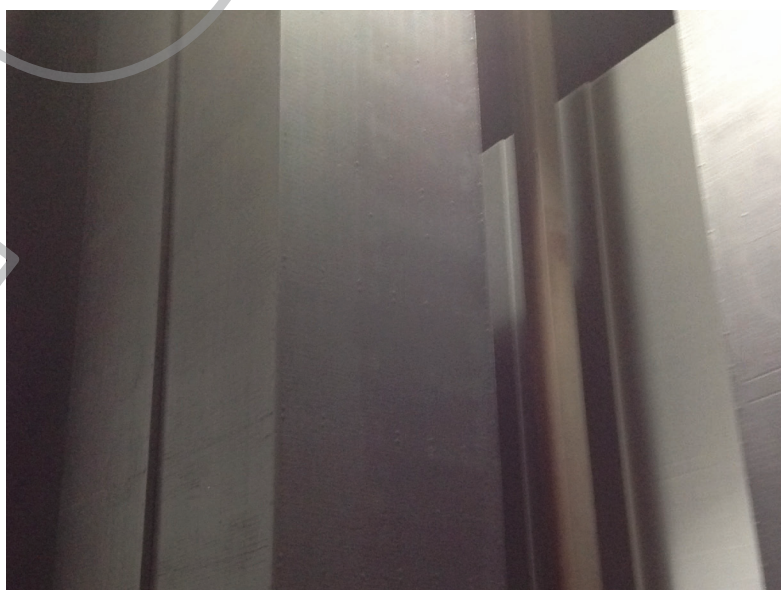

## ***Cavity Wall & Sheathing Under Slab- Perimeter- Foundation Graphite Enhanced Insulation***

***R5 (1.0625" thick) alternative to XPS  
R10 (2.125" thick) alternative to XPS***

***Molded in billets 39"x48"x 288"  
Available in densities to match XPS  
No harmful blowing agents  
No degradation of R value***

***Rigid Insulation  
Closed Cell Foam  
Excellent Moisture  
Resistance  
100% recyclable***

***Approximately 3 times less vapor permeable than XPS  
Safer for the Environment***
